If you love chic and sassy prints, you'll love our Boho Girl at Hancock Fabrics! Debra Valencia designs printed in 100% cotton, pre-cut fabrics in half yards, fat quarters, jellies and charms, perfect for sewing and quilting. We have three free projects on our website, too!

Debra's artistic style mixes decorative and geometric motifs in a fun way. The [Boho Girl Shirred Dress](#) is a quick project. Mix one half yard and two fat quarters to find your own style. There are so many combinations possible!

This vibrant quilted runner would be charming on your table. It uses a roll of 20 jelly strips, and 1 1/2 yards for the backing and binding. The free pattern is here [Boho Girl Table Runner](#).

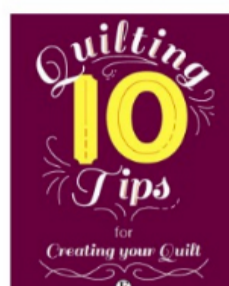

Do you have a weekend to design and sew? This one of a kind [Boho Girl Diaper Bag](#) uses two packs of charm squares and a 5-piece fat quarter bundle for the lining and pockets. Arrange the fabrics a little differently for a boutique style tote for yourself. There's a pocket for everything inside.

We are so excited to work with Debra Valencia and share her beautiful designs with you. For more of her story, designs and projects, visit www.debravalencia.com. The fabrics are sold at Hancock Fabrics.
